

113TH CONGRESS
1ST SESSION

S. 1112

To amend the Elementary and Secondary Education Act of 1965 to require
the establishment of teacher evaluation programs.

IN THE SENATE OF THE UNITED STATES

JUNE 7, 2013

Ms. LANDRIEU introduced the following bill; which was read twice and
referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To amend the Elementary and Secondary Education Act
of 1965 to require the establishment of teacher evalua-
tion programs.

1 *Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Securing Teacher Ef-
5 fectiveness, Leadership, Learning, And Results Act of
6 2013” or the “STELLAR Act”.

7 **SEC. 2. FINDINGS.**

8 Congress finds the following:

1 (1) Effective teachers and principals are the
2 backbone of our schools and the key to successful
3 students.

4 (2) Teachers and principals deserve our full
5 support as they take on one of the most important
6 and most challenging responsibilities—educating our
7 children.

8 (3) High-quality evaluations that provide mean-
9 ingful feedback are a crucial element to giving edu-
10 cators the support they need to successfully achieve
11 at high levels.

12 (4) Teachers and principals also deserve access
13 to professional development opportunities so they
14 can continue to learn and grow as educators.

15 (5) Research shows that high-quality and effec-
16 tive teaching is the single most important school-
17 based factor impacting student learning.

18 (6) In formal studies, including research high-
19 lighted in “The Widget Effect”, nearly 75 percent of
20 teachers reported that they have not received specific
21 suggestions on how to improve classroom practices
22 in annual evaluations.

23 (7) Across all local educational agencies, only
24 43 percent of teachers, including novice teachers

1 who may benefit the most from feedback, report that
2 current evaluations systems are helpful.

3 (8) Research also shows that school leadership
4 quality is second only to teacher quality among
5 school-related factors in its impact on student learn-
6 ing.

7 (9) Strong school leadership is a key deter-
8 minant of whether schools can attract and retain ef-
9 fective teachers particularly in high-poverty schools,
10 as research has found teachers' satisfaction to be
11 more influenced by the culture of the school than by
12 the demographics of the school's students.

13 (10) Principals set the direction and vision for
14 a school, and studies find that strong instructional
15 leadership and a focus on building a shared mission
16 focused on student achievement can create a positive
17 teaching and learning environment.

18 (11) Constructive feedback specifying areas for
19 improvement could be useful to both teachers and
20 principals who are dedicated to growing profes-
21 sionally.

22 (12) The most effective way to turn around a
23 struggling school is through talented teachers and
24 an inspirational principal.

1 (13) Effective teachers and principals also de-
2 serve to be recognized for excellence and to receive
3 commendations in areas of strong performance and
4 improvement.

5 (14) Evaluations should give teachers and prin-
6 cipals the opportunity to foster mutually beneficial
7 professional relationships.

8 (15) Teachers and principals should provide
9 input and contribute directly to designing, imple-
10 menting, and improving evaluation systems in their
11 school districts.

12 (16) High-quality teacher and principal evalua-
13 tions have the potential to be a powerful tool and
14 should play a significant role in building a talented
15 force of educators.

16 (17) The goal of evaluation systems is to im-
17 prove individual, as well as whole school and district,
18 teaching and leadership practices to benefit stu-
19 dents.

20 **SEC. 3. ROBUST TEACHER AND PRINCIPAL EVALUATIONS.**

21 (a) IN GENERAL.—Section 1111(b) of the Elemen-
22 tary and Secondary Education Act of 1965 (20 U.S.C.

4 learning gains on the State's academic
5 assessments established under para-
6 graph (3) or, for grades and subjects
7 not covered by the State's academic
8 assessments, another valid and reli-
9 able assessment of student academic
10 achievement as long as the assessment

13 is employed for the grade or subject
14 area for which the assessment is ad-
15 ministered;

16 “(II) at least one other valid and

24 measures that track individual stu-

1 dent academic growth while under the

9 occasions during the school year in
10 which the teacher is being evaluated;

8 ing students in each of the subgroups de-
9 scribed in paragraph (2)(C)(v)(II).

10 “(ii) GRADUATION RATES.—For a
11 principal of a secondary school, a portion

14 in section 200.19(b) of title 34, Code of
15 Federal Regulations, as in effect on the
16 date of enactment of this paragraph, when

22 ERS.—A portion of the evaluation is based
23 on the recruitment, development, evalua-
24 tion, and retention of effective teachers.

1 “(iv) LEADERSHIP ABILITIES.—A por-
2 tion of the evaluation is based on the lead-
3 ership abilities of the principal, as meas-
4 ured by observations of the principal and
5 other relevant data evaluated against a rig-
6 orous rubric that defines multiple perform-
7 ance categories in alignment with the
8 State’s professional standards for prin-
9 cipals.

10 “(v) CONTENT OF OBSERVATION RAT-
11 INGS.—The observations described in
12 clause (iv) provide observation ratings
13 that—

14 “(I) meaningfully differentiate
15 among principals’ performance; and

16 “(II) bear a strong relationship
17 to evidence of student academic
18 growth with respect to the State’s
19 academic standards.

20 “(vi) MEANINGFUL DIFFERENTIA-
21 TION.—The evaluation provides perform-

23 tiate among principal performance using
24 the performance ratings and levels de-
25 scribed in subparagraph (A)(i).

1 “(vii) COMPARABILITY OF RESULTS.—

2 The evaluation provides results that are
3 comparable across all principals within the
4 local educational agency in which the prin-
5 cipal is employed.”.
